L O N D O N

2020 SPRING/SUMMER CATALOGUE

ABOUT US

Founded in 1998, Black+Blum is based in London - one of the most diverse and creative cities in the world with a thriving community of design-orientated companies. Our products are sold through a wide variety of retailers in over 60 countries worldwide and we have warehouse centres in the UK and the USA.

Following successes in various product categories, our focus is now firmly on further developing our fast-growing and internationally popular food & drink on-the-go range. Both of these sectors are benefitting from growing consumer trends, notably in the areas of health, wellness, and especially ecological awareness.

We are proud to have membership with:

"We want people who own Black+Blum products to feel great about using them every day."

Dan Black - Co-founder & Lead Designer

20+ YEARS OF DESIGN

FOOD & DRINK ON-THE-GO

People are increasingly realising the importance and benefits of sustainable, healthy living. Our unique, on-the-go designs offer a range of tailored solutions for all their hydration and nutritional needs. Taking your own food and drink with you brings many health, environmental and economical benefits.

NEW GLASS COLLECTION

STAINLESS STEEL COLLECTION

NEW ORIGINALS COLLECTION

CHARCOAL FILTER COLLECTION

GLASS COLLECTION

More and more people are appreciating the benefits of drinking and eating from pure glass. Our innovative food storage designs come in different sizes to cater for all culinary creations, and the bottles come in a variety of colours to suit people's tastes.

NEW

Our new leakproof and lightweight glass lunch range comes in three sizes and two colours, Almond or Slate. The silicone lid prevents splattering when microwaving and the base container is made from durable polypropylene combined with sustainably-sourced wood fibre which provides protection for the glass bowl and makes it easy to hold after microwaving. The stainless-steel lid screws onto the base to provide a leak-proof seal.

Borosilicate glass, silicone, polypropylene with sustainable wood fibre & stainless steel

GLASS LUNCH BOWL

At 750ml, the Glass Lunch Bowl is perfect for leafy salads, a hearty curry or even giant ravioli.

D14.5 x H8 cm | D5.7 x H3.2 in
750 ml | 25 fl oz

PACKAGING

GLASS LUNCH POT - LARGE

The larger of the pots holds a sizeable lunch portion, without taking up too much space in your bag.

GLASS WATER BOTTLE

Our new glass water bottles have been designed to provide an enjoyable drinking experience. The thread is on the inside of the bottle neck giving you a smooth surface to drink from and the lid features high-quality stainless steel inside and out so that your water has no contact with any plastic. The bottles have a protective non-slip silicone sleeve and a convenient carry loop. Our “Almond” coloured sleeve is made of a combination of wood fibre and TPE for a unique finish.

Glass, stainless steel, nylon, polypropylene & silicone

STAINLESS STEEL COLLECTION

DURABLE STEEL

Our stainless steel range continues to receive an amazing reaction, and is collecting accolades from people who advocate a zero-waste lifestyle and appreciate products that are built to last. The mantra of 'buy once, buy well' is what fuels this collection and inspires us to grow and refine it every year.

STAINLESS STEEL LUNCH BOX LARGE

Our Stainless Steel Lunch Box is the first truly leak-proof box with 3-in-1 multi-functionality, meaning you can transport your lunch, cook dishes in the oven, and even store pre-cooked meals in a freezer. The silicone valve creates a secure vacuum-sealed closure, the adjustable divider allows you to separate food, and the fork & strap are added for convenience.

STAINLESS STEEL LUNCH BOX

Following on from the success of our large steel lunch box, we have added a smaller version. Like the large, it has a silicone valve that makes it fully leak-proof, it can also be used in the oven and is freezer safe. The over-moulded silicone seal is designed for longer life and easy cleaning, and the silicone strap gives added security and also holds the included fork.

ORIGINALS COLLECTION

ORIGINS

In the past, children had fun lunch boxes and adults had to make do with boring containers. In 2010, we thought it was time to revolutionise the lunch box world. Products in the original collection have been best sellers for the past 9 years and now, to celebrate the 10th anniversary, we have updated them to be even better, whilst remaining true to their original appeal. This collection represents the classic designs that started the journey for us.

NEW

LUNCH BOX ORIGINAL

Designed to look like a ceramic bowl, the Lunch Box Original includes an inner container as well as a leak-proof sauce pot with a garnish area in the lid, and a stainless-steel fork. Being microwaveable and fully leak-proof, this is one of the most versatile lunch box solutions in our collection.

LUNCH POT ORIGINAL

The Lunch Pot Original consists of two water-tight pots that can be locked together for carrying. The pots have a convenient silicone carrying strap which also holds the stainless steel “spork” (spoon and fork). Separate anything from yoghurt and fruit to noodles and soup. When you’re finished, the smaller pot fits inside the larger pot for easy storage.

CHARCOAL FILTER COLLECTION

100% NATURAL FILTRATION

The extraordinary filtering power of Binchotan charcoal has inspired perhaps our most iconic collection to date. What started out as one water filter bottle has developed into a series of must-have filtration products, whether you prefer to drink your water at home, at work or on-the-go.

BINCHOTAN CHARCOAL

HISTORY

It is believed that a form of Binchotan charcoal (sometimes referred to as ‘white charcoal’) was introduced to Japan by a monk and scholar called Kukai 1,200 years ago. It was during the Edo Period (17th century) that a man called Binchuya Chozaemon made it popular.

HOW IT’S MADE

The Quercus phillyraeoides (oak) trees are pruned and the wood is transported to the kiln. It is stored there for 1 month untouched to dry the wood. It is then put inside the kiln and burned until it reaches 1200°C to make it red-hot and carbonised. The Binchotan charcoal is removed and quickly covered with a powder made from earth, sand & ash, and this gives the charcoal surface a whitish hue (explaining the name ‘white charcoal’). The rapid rise in temperature, followed by a quick cooling, incinerates the bark and leaves a smooth, hard surface. This process takes 21 days.

HOW IT WORKS

This type of filtering works using a process similar to a reverse osmosis system. Binchotan charcoal has an incredibly porous surface with tiny cavities orientated in many directions - just 1 gram has a surface area in excess of 250m² (the size of a tennis court). The positive ions of contaminants in the water (e.g. chlorine) are attracted to the negative surface of the carbon where they are held. In reverse, the charcoal releases its natural minerals such as calcium, potassium and magnesium back into the water, which softens it and enhances its taste.

HOW TO USE

The best thing about Binchotan Charcoal (other than its amazing filtering ability) is that it lasts 6 months. All you have to do is make sure you recharge it by boiling it for 10 minutes after 3 months of use.

CHARCOAL WATER FILTER

Binchotan charcoal makes tap water taste great! Leave in your water for 1-8 hours and you’ll be amazed how well it works. Each stick lasts 6 months and comes vacuum packed in recyclable plastic for immediate use. Counter POS available (click [here](#) to see)

(approx.)
D2.5 x L11.8 cm | D1 x L5 in

CHARCOAL WATER FILTER & COIL

The charcoal water filter that you know and love has been upgraded! This stainless steel holder gives you the opportunity to keep your water filtered in any bottle, with no rattle and no scratches! It’s also taste neutral and easy to use. Counter POS available (click [here](#) to see)
