At monbento[®],
we promote
openness

● open up to the best that food has to offer

Opening a monbento® lunch box means opening up to a new kind of cuisine: the others' but also and above all yours; one that is healthier, more balanced and always flavourful.

It means opening up to a world with less waste.

It means opening a bento box that is designed to last and to reflect your personality.

“We believe that, opening up to others and to the world, we can also open up to new ways of consuming.”

It is with this mindset that Fabien discovered the bento box: the individual and complete meal, arranged in a compartmentalised box that was very common in Japan.

Being himself open to design, Fabien created monbento®: the meal break reinvented through reusable and ergonomic products.

Fabien Marret,
Co-founder, Designer and
Chairman of monbento®

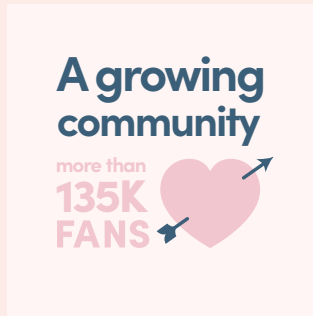

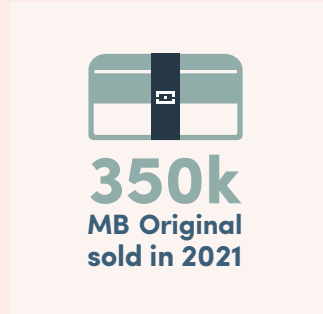

Developed by Peugeot

Gifted with an entrepreneurial spirit since its origins, Peugeot constantly enriches its expertise to create objects and experiences in sync with their time.

By reinventing the concept of on-the-go meals, monbento[®], developed by Peugeot, promotes "the best that food has to offer" with all its ingenuity, elegance and sense of innovation.

Open up to opportunities

Open up to a sustainable economy

At monbento[®], we have chosen a local and circular economy throughout our value chain. That way, we can participate in the territorial dynamisation.

Made in France

To make it easy for restaurants to adopt reusable solutions, we are working hand in hand with zero-waste food delivery and take-away services.

In Paris, Deliveroo customers can order their meals in reusable bento boxes in a selection of restaurants.

Since July 2021, monbento® is a signatory of the French government's commitment charter for eco-friendlier food delivery service.

Heating
lunch box

Heating lunch box

●

Since the very first day of the monbento® adventure, we have been putting users at the centre of our decisions. To keep removing the constraints related to meal breaks, we wanted to go further in innovation and offer a heating bento box.

We have designed this lunch box to meet your needs when eating on the go: fast and healthy heating to preserve the taste and nutritional properties of your dishes. Take along, reheat, enjoy: it's that easy with the MB Warmer!

Various heating programs for all your dishes, 1h keep warm mode to fit your schedule, compatible with a car plug to reheat your meal wherever you are... We paid attention to every single detail to make the difference; those details that make the monbento® lunch boxes unique.

MB Warmer

The heating bento box

Take along, reheat, enjoy!

- 700 ml capacity + compatible with a wall* or cigarette-lighter socket** = a complete lunch, hot in 15 minutes, without microwave
- 3 heating programs = adapts to the quantity and type of food to preserve its nutritional properties
- 1h keep warm mode = fits your schedule
