— terre d'Oc's commitment —

Since 1995, from Haute-Provence to the whole world, we are a collective of women, and also a few men, who are passionate and committed to creating a more beautiful and united world.

Whether it's a tea, a candle, a scented water or a blend of essential oils, we craft through our exchanges and meetings products that do good.

Small changes lead to bigger ones...

We believe that everyone is able to have a positive impact on society. This starts with our own choices of consumption.

Every day, we strive to create and manufacture wellness products that are beautiful, good and healthy, in a qualitative and ethical manner, and that are friendly to our planet and its inhabitants.

As female and male creators, we add an additional challenge to our approach: that of taking care of and promoting the talents of women throughout the world, because for us, sustainability is not possible without equal opportunities.

Thus, we believe we can enable our customers to contribute at their level to a more sustainable and inclusive world. Because our products invite to take time for yourself first. And because they are made with 100 % organic or natural ingredients and in an ethical manner, always.

We believe in the symmetry of caring.

Buying a Terre d'Oc product means contributing to a more global approach to the redistribution of wealth and the development of women's talents throughout the world.

For this reason too, we have become a company with a mission since July 2021. At terre d'Oc, we are through inheritance craftswomen and men of the senses and joyful benefactors. We invite you to indulge yourself and others with our products, as they yield a happy and generous experience of caring for yourself, others, women, our planet.

Laure Vincent - Chief Executive
& Vincent Cavailès - CEO

— **terre d'Oc, our products** —

At terre d'Oc we strive to ensure that all our products are:

APPEALING: GOOD:

that they bring joy and emotion
stemming from beauty.

that they were designed through
fair trade as much as possible and
by developing channels directly
from the producer, where everyone
benefits from solidarity actions while
preserving our planet's resources
and biodiversity.

HEALTHY:

requirement for naturalness,
priority given to organic
or certified natural ingredients.

Finally, our products highlight **THE TALENT OF WOMEN**: our sourcing promotes women's groups and their autonomy, bringing together talented women in France and around the world.

And to go even further in our social and environmental commitments, terre d'Oc has become a mission-driven company since 2021 by including these objectives in its company statutes.

— **terre d'Oc, mission-driven company** —

OUR RAISON D'ÊTRE

**"To design and manufacture good,
healthy wellness products based on an approach that protects
natural resources and biodiversity,
developing at the same time organic and fair trade sectors
and highlighting the work done by women
all over the world."**

OUR COMMITMENTS

Commitment 1

To create responsible wellness products with an eco-design approach while building a community of consumers who share our « raison d'être ».

Commitment 2

To promote ethical organic sourcing with local channels, promoting the work of small producers in France and around the world.

Commitment 3

To preserve our planet by improving our carbon footprint and promoting recycled materials and waste recycling.

Commitment 4

To highlight the talent and work of women in France and around the world and support them in their projects.

Commitment 5

Promote our employees well-being through a good work-life balance, increasing their skills and offering a pleasant work environment.

This core purpose and its related commitments have been enshrined in our statutes ever since July 2021 and are statutory goals our company strives to achieve.

terre d'Oc, a mission-driven company and part of the Nature & Découvertes group

A COMMITTED SME IN AN EQUALLY COMMITTED AND POWERFUL GROUP

terre d'Oc has always been mainly distributed by and works closely with Nature & Découvertes. It is therefore quite natural that in 2017, terre d'Oc became part of the Nature & Découvertes group.

Nature & Découvertes is a pioneering brand in **committed distribution and trade**:

- around 100 eco-designed stores in France and internationally;
- 1 000 employees;
- a turnover exceeding 200 million euros;
- 110 % of its net profits are donated to its Foundation to finance actions to protect the environment. 3,000 projects have already been financed regarding nature preservation and active education in relation to nature; for more information please visit: fondation.natureetdecouvertes.com
- a policy of ethical sourcing when selecting its partners in order to have products in line with its ecological, social and quality values.

An inspiring « raison d'être »: « **To offer concrete solutions (products and experiences) to those who want to change their way of living, for a new ecology of Earth, our body and spirit.** »

A virtuous partnership of terre d'Oc and Nature & Découvertes to give the best! An SME and a group sharing the same values in the service of the Common Good: humanity and nature. Nature & Découvertes became a subsidiary of the Fnac Darty Group in 2019, a group committed to CSR and product sustainability.

— terre d'Oc, born of women's talent —

**From the Haute-Provence region to the entire world,
passionate and committed women exchange
and meet to create products that do good.**

The talent of women in our society is not always perceived at its true value. We believe that our consumer choices can contribute to a better exposure and valorisation of women, and thus to the progress of our society.

From one region to another, from Asia to Africa, **women cultivate tea trees and hand-pick spring buds** according to ancestral traditions, women gather shea nuts to make butter, women make rattan rods while looking after their children's education.

Others are scouring the foothills of the mountains for new crops in the best organic gardens or mythical plantations, or they're travelling to try and find a fairer trade.

Meanwhile, on the other side of the Mediterranean, in Provence, **some design and make subtle and refined flavours** or create products with a unique character, thinking of the good they could do to other women.

Others draw or fill pretty colorful tea tins.

Finally, others pour thousands of cups, taste each harvest and assess the leaves and flavours quality!

A citizen of the world, altruistic, militant, passionate and ethical, terre d'Oc believes in and advocates « *Women Empowerment* » and *sisterhood* by promoting each of the women involved in the making of its products, from planting to marketing.

Our team is surrounded by the scents of Provence just below the village of Villeneuve in the Alpes-de-Haute-Provence.

All the departments dedicated to the development and the production of our collections are integrated into the company.

A team of 50 committed people working every day with enthusiasm to offer products which are full of meaning, in the following departments:

- Marketing & communication
- Graphic communication & pack
- Quality & regulatory
- Sourcing & purchasing
- Production & logistics
- Commercial department
- Financial & human resources
- And even a dedicated Sustainable Development and Fair Trade department.

**terre d'Oc, an ethical
and supportive eco-friendly company**

Products that respect nature while combining
quality, aesthetics and benefits at the right price.

Recyclable and reusable eco-designed packaging with elegant designs
inspired from cultures of the world.

The vast majority of our products are **grown organically and certified by Ecocert.**

We develop **direct channels in the four corners of the world**, where everyone benefits
from our concrete solidarity actions (bonus equivalent to 5 % of the yearly FFL purchases,
technical and material support, medical care and school grants).

Local partnerships with cooperatives, if possible with fair trade channels
monitored according to the FFL standard or another fair trade label.

We try as far as possible **to promote sourcing from France.**

Donation of 1 of our annual turnover to finance projects where human beings
and nature come together, and, if possible, projects led by women.

Member of the Mission-Driven Business Community since 2021.

Organic
PEACH AND APRICOT FLAVOURED
white tea from Fujian

Bai Mu Dan (white Peony) is made up of the leaf tip and the following 2 leaves (fine harvest). It is picked in the spring. Its very dry fragrance is like that of dried flowers and it blends beautifully with the delicate, fruity aromas of peach and apricot. White tea is a luxury product, and in China the offering of tea is still a gesture of pure politeness and respect towards the visitor.

INGREDIENTS: WHITE TEA BAI MU DAN* (CHINA) 80 %, APRICOT NATURAL FLAVOUR*, PEACH NATURAL FLAVOUR*.

T° 70 °C - 4 to 5 minutes.

ORANGE-BLOSSOM FLAVOURED
white tea from Fujian

Bai Mu Dan (white Peony) harvested in spring in the Province of Fujian is made up of the leaf tip which is covered in a silvery down and the following two leaves (fine harvest). There are only two operations in the preparation: sunned-wilting followed by desiccation. Once reserved for emperors and noblemen, the first harvest of white tea dates back to the 18th century and the Qing dynasty.

Its refined aroma of cut grass blends beautifully with the appetizing sweetness of orange blossom.

INGREDIENTS: WHITE TEA BAI MU DAN* (CHINA) 80 %, ORANGE BLOSSOM NATURAL FLAVOUR* 9 %, ORANGE BLOSSOM PETALS* 4 %, VANILLA NATURAL FLAVOUR*, FLOWER PETALS*.

T° 75 °C - 4 to 5 minutes.

JASMINE FLOWERS-SCENTED
green tea from China**

In China, jasmine tea (Mo Li Hua Cha), is said to be the oldest of the flower teas and to have been made under the Song imperial dynasty (960-1279). Mo Li Hua Cha is made following the thousand-year old method, the green tea leaves are mixed with fresh jasmine flowers to give them their fragrance and the petals are then removed one by one by hand so as to not lend bitterness to the brew. A wonderful green tea with a subtle, refined fragrance of jasmine flowers!

INGREDIENTS: GREEN TEA* [CHINA] 100 % PERFUMED WITH JASMINE.

**Organic Korean green tea
YUZU flavour**

Grown in South Korea on the island of Jeju, known as « the island of the gods » due to its climate and pure air, its highly fertile volcanic soil and incredible biodiversity, this green tea with its long summer leaves, brewed in a wok following age-old Korean tradition, gives a marvellously soft and mellow liquor. It blends wonderfully with the aromatic and very exotic flavour of yuzu, a small strong-flavoured citrus fruit whose taste is somewhere between that of the Ichang lemon, lime and wild mandarin! Very popular in Korea, yuja tea (유자차 yuja-cha) is made from yuja (yuzu) with its refreshing and comforting properties.

INGREDIENTS: GREEN DAEJAK TEA* [SOUTH KOREA] 75 %, YUZU EXTRACT* 8 %, PIECES OF LEMON*, LEMON EXTRACT*, SWEET LIMETTA EXTRACT*.

T° 85 °C - 5 minutes.

GUNPOWDER green tea
with MINT LEAVES**

The Tuaregs' favourite tea is a green China tea whose leaves are rolled into the shape of tiny dark green pearls which crackle in the teapot, which is how they got their name (Gunpowder). The desert nomads offer green mint tea to the visitor following an unchanging ritual: three brews, from the sweetest to the bitterest, are successively served in little glasses. The three teas symbolize life, love and death. The large quantity of mint leaves gives this tea with a very sharp, vegetable and fresh taste. It is drunk very hot for its thirst-quenching and digestive benefits.

INGREDIENTS: GREEN TEA GUNPOWDER* (CHINA) 60 %, MINT LEAVES* 40 %.

T° 85 °C - 2 minutes.

"GENMAÏCHA" green tea
from Japan**

A traditional Japanese recipe of Sencha green tea mixed with roast and puffed grains of rice. This highly popular tea is very good for quenching thirst and is drunk hot or iced all over Japan at all times of day. The fresh, vegetable notes of Bancha tea blend well with the malted notes of roasted cereals and give a voluptuous tea with a delicate flavour of green hazelnuts and freshly roasted rice.

INGREDIENTS: AUTUMN SENCHA GREEN TEA (BENCHA)* (JAPAN) 50 %, PUFFED RICE* (JAPAN) 50 %.

green SENCHA MATCHA tea
from Japan**

Blend of green Sencha tea & Matcha powder. Introduced to Japan by Bhuddist monks, matcha is traditionally used for the tea ceremony. Three weeks before the leaves are harvested, the tea trees are shaded in order to allow them to develop silky, milky aromas. Reduced to a fine powder, the matcha is mixed with the Sencha tea needles, to give a full-bodied and gentle liquor that the Japanese call umami (savoury).

INGREDIENTS: GREEN SENCHA* TEA (JAPAN) 97 %, GREEN MATCHA* TEA POWDER (JAPAN) 3 %.

black tea Earl Grey
BERGAMOT flavoured**

There are so many stories behind the origins of Earl Grey tea that it has become a real myth! This tea gets its name from Earl Grey. One of his servants had the brilliant idea of adding a slice of bergamot to set off the flavour of the black tea. Earl Grey was absolutely enchanted by the exquisite taste and the originality of the brew and he popularized the recipe. Earl Grey tea became one of the most widely drunk teas in the world! A lovely recipe where the strength of the black tea blends with the powerful and zesty notes of bergamot and the added beauty of flowers petals.

INGREDIENTS: BLACK TEA* (SRI LANKA, CHINA) 87,5 %, NATURAL BERGAMOT FLAVOUR*, FLOWERS PETALS*, NATURAL ORANGE BLOSSOM FLAVOUR*.

— Harvesting white tea —

A SYMBOL OF PURITY

White tea is **hand-picked with infinite care in the early morning.**

The pluckers take only the white, downy terminal buds and the first two leaves, young and fresh, from the tea plant. **The harvest is carried out only once a year, during spring, when the sap, full of vitamins and nutrients, is at its peak.**

The white tea is not processed, it is not oxidised. Its freshly plucked leaves are dried in the sun and thus retain their abundant wealth of essential oils, anti-oxidants and benefits.

A rare and precious tea with a soft, floral and velvety texture.

WHITE IMPERIAL – CHINA

SENCHA KASUMI – JAPAN

In Fujian, the first harvest in the spring offers its fine and imperial picking of Bai Mu Dan. An exceptional tea which contains a large proportion of downy buds known as Silver Needles or Yin Zhen. The leaves and the long buds are picked by hand and simply dried, they offer a flavour of great finesse, floral, velvety and vegetal.

This Sencha Kasumi, whose name in Japanese means « spring mist », is a delicate, refined green tea produced in the region of Uji, well-known for the prodigious quality of its green teas. The tender needle-shaped leaves give a very fresh, sweet pale green liquor. Drink it for total peace!

INGREDIENT: WHITE TEA BAI MU DAN* (CHINE) 60 %, WHITE TEA WHITER SILVER NIDDLE* (CHINE) 40 %.

INGREDIENT: GREEN TEA* (JAPAN).

OOLONG BAO ZHONG – CHINA

Bao Zhong means « folded in white paper » because the leaves used to be wrapped in paper before being roasted. Grown in the mountains, « Yan Cha » rock tea comes from the Wu Yi Shan mountains of Fujian. This oolong is a tea with a degree of oxidation between that of green and black tea leaves and it offers a rich and light, strong and subtle, appetizing and woody liquor, ideal both before and after meals. A comforting, tonic tea!

INGREDIENT: BLUE GREEN TEA* (CHINA).

Do you know?

THEY ARE WILD, CULTIVATED, FRAGRANT AND BENEFICIAL

The term "simples" used to refer to plants used by monks to prepare remedies because of their medicinal virtues. Medieval monasteries were thus adorned with herb gardens where medicinal plants and their benefits were listed.

Mystery and magic of nature, most aromatic plants keep their fragrant secrets on the surface of the leaves. Infused, they distill all their richness.

24 PRESSED TEAS BIRD NESTS

2 NESTS = 1 LITRE OF TEA

A discovery box made of 24 pressed tea bird nests that honours an ancestral Chinese technique.

During the Tang Dynasty, tea was compressed to facilitate its transportation throughout the empire. This know-how included a lengthy fermentation away from light, the tea slowly improving over time like good wines do! A collection preciously laid out in its case in which you'll be able to explore 4 nests of teas with unique flavours...

- Plain green tea • x8 - Plain black tea • x8
- Black tea with spices • x8
