## Better. Guaranteed.

At OXO, we're always on the lookout for ways to make everyday tools and tasks better. We frame our product development process through the lens of Universal Design and engineer items that are easy and comfortable to use, often taking inspiration from unexpected places.

OXO Good Grips is the essential, quintessential range of home products that make everyday living better, every day. These iconic products changed the game by challenging convention—they raised the bar with their thoughtful design, improving everyday living.

# At OXO, we believe there is a better way.

We look at everyday objects and activities, and we see ways to make things simpler, easier, more thoughtfully designed—better.

We see the big picture and the small details, and we think through it all: peelers and graters and all kinds of cooks, coffee makers and coffee drinkers, dusters and compulsive cleaners, booster seats and tots who need an extra boost. We consider how a tool functions—how it fits into hands, how it fits into lives—and we design a better way.

With OXO tools, people who love tasks love them more; people who hate tasks hate them less. We see a better way, and we make it happen: better quality, better performance, better experience, better day.

We're always searching, we're always solving, we're always making tools that make everyday better. And if we can't make it better, we won't make it. Because we keep our promises, by creating, delivering, delighting—every day.
