Our Story

The original Kilner® Jar, first invented by John Kilner and Co. in 1842, in England, is as much-loved and successful now as it was over 180 years ago. Its long-lasting popularity is owed to its overall quality and reliable functionality, being known as 'the original and the best, all other brands are substitutes', is a testament to its impressive heritage.

We have learnt from consumer research that our customers like to cook from scratch, are health conscious, and avoid processed foods resulting in a surge in popularity for preserving home-grown fruit and vegetables.

Scratch cooks looking to experiment making butter, jams and fermented foods, coupled with storing food in glass rather than plastic for its health benefits, has catapulted the Kilner® Collection into the limelight. They aspire to have a kitchen full of quality ingredients at hand, while having decanted dry foods beautifully on display in a dedicated pantry space.

This makes Kilner® the perfect destination for pantry storage with a whole host of glass storage solutions. Not only is the Kilner® Jar essential for the kitchen, but it has become a statement of style around the home.

Kilner® products can be found in world-famous department stores and small independent shops around the globe.

Keep checking our social media channels and Kilner® website for lots of inspiring activities, including our new Pantry campaign, and collaborations with bloggers and other influencers.

Fresh Storage Jars

Create a stylish and organised kitchen with the new Fresh Storage Jar Collection. This comprehensive range of borosilicate glass containers offers everything you need for keeping dry foods fresher for longer.

Designed to be light weight with square shape corners for easy pouring, the lid is made from tempered soda lime glass, which is easy to push on and pull off. The unique silicone valve creates a strong vacuum seal maintaining ultimate freshness.

Glass is the best material to store foods with no chemical leaching and BPA free. The clear body lets you see the contents at a glance with space on the jar body and lid to add labels of your choice.

Available in a variety of sizes from 160ml spice jars, up to the 3.5 litre jar, this range is stackable and compact for space efficiency for pantry, cupboard or worktop.

This new range co-ordinates with the original Fresh Storage Collection with matching signature grey silicone lids.

Herb Keeper

Keep fresh grown or store-bought herbs fresher for longer, for up to 3 weeks, with this easy-to-use Herb Keeper Set. Stemmed herbs such as basil, parsley, mint and coriander last longer when stored in a container with their stems in water.

The unique design includes a silicone rod and circular disc containing different hole sizes to accommodate a variety of herb stems, maintaining an upright position. Designed to be kept in the fridge, or on the kitchen countertop out of direct sunlight, this Herb Keeper is perfect for keeping herbs fresh and ready to use, with less waste.

A step-by-step booklet is included in the set with illustrated instructions and suggested recipes.

Fill the base of the jar with approximately 2-3cm of clean filtered water.

Insert the base of the stems into the silicone disc, ensuring no leaves touch the water.

Insert the lifter and herbs into the jar screw on the lid and keep in the fridge.

Cheese Store

The Kilner® Cheese Store is the perfect solution for a tidy, organised fridge. The dual function lidded dish can be used **with** the silicone seal to keep strong flavoured, blue cheeses airtight containing the aromas.

Alternatively, remove the silicone seal to allow less aromatic cheeses to breathe, maintaining moisture and preserving their distinct flavours and taste.

The ceramic base of the Cheese Store makes an excellent choice for serving a cheese selection directly at the table, keeping the cheese cool.

The transparent nature of the glass allows for easy visibility of the contents and is easy to clean by placing in the dishwasher.

Kefir Set

Make your own healthy kefir with the easy-to-use Kilner® Kefir Set. Simply add kefir grains into the jar using the unique beech wood measuring spoon then add milk or sugar water to allow the fermentation to begin. Create tangy flavoured probiotic drinks to consume straight away or incorporate into recipes for healthy balanced meals.

This unique set has a dual size silicone straining cap with a stainless-steel lid to cover the jar once the fermentation process is complete.

A step-by-step booklet is included in the set with illustrated instructions and suggested recipes.

Add Kefir grains, milk or water to the jar according to the recipe.

Place the strainer cap onto the jar and set aside at room temperature to allow the fermentation process to begin.

Strain the liquid to separate the grains then add the stainless-steel lid for storage. Grains can be reused.

1 Litre Fermentation Set

The 1 Litre Kilner® Fermentation Jar Set provides the easy way to create smaller batches of your own delicious, fermented foods packed with vitamins, minerals and probiotic cultures.

The wide neck opening on the jar allows for easy filling and decanting of the finished creation. The unique silicone duck beak shaped valve incorporated in the lid releases the gases that build up inside the jar during the fermentation process. However, the atmospheric air on the outside will not be able to enter the jar, which usually causes food to spoil.

The ceramic weights sit on top of the ingredients to ensure that they are kept under the brine solution.

Once fermentation is complete, the one-piece lid allows you to store the finished food in the fridge ready to consume.

Once the desired taste and texture is achieved, replace with the one-piece lid and store in the fridge.

Fermentation Packer

The Kilner® Fermentation Packer is an essential tool for preparing and packing vegetables, to create fermented foods such as Sauerkraut and Kimchi. Made from beech wood, the Fermentation Packer has a textured mashing head, designed to help break down the ingredients, eliminate air bubbles and release the tangy flavours synonymous with fermented foods.

The packer is suitable for the Kilner® 1 and 3 litre specialist Fermentation Sets but can also be used with a variety of wide mouth jars from the collection.

Multi-Purpose Grater

The Kilner® Multi-Purpose Grater is a versatile food preparation tool that can be used for grating garlic, as well as puree fruits such as apples, pears and kiwis. Hand-grating fruit preserves the natural flavours, vitamins and nutrients by creating a puree and light juices. A perfect combination and consistency for feeding infants around 4 months old and adding into recipes.

The oval shape allows for the back-and-forth grating motion that is required with the sharp grating teeth making it easy to rub the foods and create the desired pulp. Juices naturally flow and are collected in the trough surround. Simply use the tipping handle to pour liquids through the pouring lip. Dishwasher safe for easy cleaning.

DRINKING AND ENTERTAINING

The Kilner® drinking range provides a variety of high quality, fashionable items to enjoy and serve drinks.

Diamond Drinks Dispenser

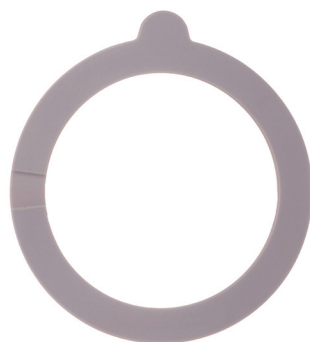

The new Kilner® Diamond Drinks Dispenser with Stainless Steel Tap is perfect for serving and infusing various types of beverages such as fruit juices, cocktails or soft drinks, making it ideal for home hosting and parties.

With a generous 5 litre capacity, the dispenser allows plenty of space to add ice to keep any refreshments cool and fresh. The innovative new seal design allows the liquid to flow through the tap when the clip-top lid is closed. The seal allows a minute amount of air to flow through the glass dispenser allowing the air pressure to release the liquid. This allows the lid to be closed at all times.

The new high-quality stainless-steel tap allows liquids to flow freely without any drips and also features a mesh fixture which helps to catch any pulses from fruits.

Customer Partnerships:

Quality and Manufacturing

Kilner® have the knowledge and experience to develop and produce high quality glass jars that will last longer and keep your ingredients safe.

From the start of production to the finish, our experience enables us to select the best quality production techniques, as well as ensuring quality is to the highest standard possible.

We recommend avoiding the use of low quality, inferior glass products, these can lead to injury and food waste. Don't risk your precious preserve by using low quality storage with ill fitting lids.

QUALITY IS VERY IMPORTANT TO KILNER®:

- ✓ All Kilner® Glass Jars are batch tested at source to AQL level 2.
- ✓ An additional quality check is also undertaken at our UK warehouse.

CHOOSE KILNER® AS WE ONLY USE QUALITY FOOD GRADE MATERIALS!

KILNER® USES FULLY AUTOMATED MANUFACTURING METHODS FOR A NUMBER OF REASONS:

Even thickness of glass ensures there are no weak spots
